PROFESSIONAL SUMMARY

Full-stack engineer who ships production web and mobile applications with AI built in. Co-founder of Fianto Solutions, delivering live platforms for commercial clients, including a gem e-commerce platform for a US-based client with PayPal checkout and AI-powered verification. Hands-on with React, Next.js, Node.js, React Native and Python, backed by a year of industry internship experience building role-based systems and OCR/ML pipelines. Available for full-time local or remote roles.

EXPERIENCE

Co-Founder & Full-Stack Engineer

Oct 2025 – Present

Fianto Solutions (Pvt) Ltd

Malabe, Sri Lanka

- Co-founded a registered software company building web and mobile applications for commercial clients; shape technical direction, delivery processes, Vercel deployments and a pull-request-based Git workflow.
- Ceylas Gems** (ceylasgems.com): built a full-stack gem and jewellery e-commerce platform for a Las Vegas-based client (React, Node.js/Express, Firebase, Cloudinary) with PayPal checkout, referral and agent-commission programmes, a cashback wallet, a monthly raffle and a full admin panel.
- Integrated AI screenshot verification using Google Gemini with a Cloudflare Workers AI (Llama 3.2 Vision) fallback, auto-approving social-follow discounts and reducing manual admin review.
- DM Interior Studio** (dminteriors.lk): developed an immersive Next.js website with GSAP scroll-driven sequences, a three.js 360° panorama viewer, Supabase and live Google reviews, plus SEO-preserving 301 redirects from the legacy site.
- Optimised loading of ~1,000 animation frames through canvas rendering optimisations, preload gating, off-screen animation pausing and long-term caching.

Full-Stack Developer Intern

Oct 2024 – Oct 2025

LegionCode IT Solutions (Pvt) Ltd

Galle, Sri Lanka

- Built full-stack web and desktop applications with Node.js, React, Python (Flask/Django) and Electron, including a real estate management system (noblehomesgalle.com), a point-of-sale system and a workshop task management application.
- Developed role-based REST APIs with JWT authentication and third-party integrations including Twilio, Nodemailer and Cloudinary.
- Built an OCR and machine learning certificate pipeline (EasyOCR, Tesseract for Sinhala and English, OpenCV, scikit-learn, TensorFlow) that validates uploaded certificates and generates replacement certificates as PDFs with QR codes.
- Worked in Agile sprints using ClickUp and Git/GitHub for task tracking, version control and team collaboration.

SELECTED PROJECTS

TeePlanet | React, Node.js/Express, MongoDB, Stripe, React Three Fiber

- B2B marketplace and 3D T-shirt design platform for shop owners, fabric suppliers and admins, with a 3D design studio, supplier print orders, Stripe subscription billing via webhooks, and sales analytics ([live demo](#)).

EMARK Vehicle Manager | React, Node.js/Express, MongoDB, Cloudinary, PWA

- Workshop management PWA with a 7-stage job card workflow from reception to invoice, inventory with low-stock email alerts, attendance and payroll tracking, and PDF quotations and invoices.

WasteNet | React Native, Firebase Firestore, Clerk

- Cross-platform mobile application for garbage collection management ([GitHub](#)).

RAG Study Assistant | Python, LangChain, FAISS, Gemini API

- Retrieval-augmented generation assistant that answers questions grounded in uploaded study materials using vector search.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL

Frontend & Mobile: React, Next.js, React Native, Redux, Tailwind CSS, GSAP, Framer Motion, three.js / React Three Fiber

Backend: Node.js, Express, Flask, Django, REST APIs, JWT authentication

Databases: MongoDB, PostgreSQL, MySQL, Firebase (Firestore, Auth, Storage), Supabase

AI & ML: Gemini API, LangChain, RAG, FAISS, OCR (EasyOCR, Tesseract, OpenCV), scikit-learn, TensorFlow

Cloud & Tools: Vercel, Docker, Cloudinary, Stripe, PayPal, Git/GitHub, Postman, Figma, ClickUp

Spoken Languages: English (professional working proficiency), Sinhala (native)

EDUCATION

BSc (Hons) in Information Technology, Specialising in Software Engineering

2021 – 2025

Sri Lanka Institute of Information Technology (SLIIT), Malabe
